Save it with *Kyanize*

Yes, you can refinish old furniture yourself
—the *Kyanize* way is the easy, fascinating way

Thousands of old old pieces of furniture are every year made to all appearances, new again by amateur hand workers everywhere. KYANIZE helps you all ready for instant use—nothing to mix—nothing to add—just spread it on with a good clean brush.

To preserve the natural beauty of the wood grain the KYANIZE Pine Finish is very often preferred. Just time is so quick to spend, time is saved, while the made—trade you is a simple, effective, easy way to make old and give to the wood a finish of new beauty, softness, luster and strength. Tough enough, too, to stand the very roughest of use on all furniture and woodwork. Will not scratch white. Stains in a woodwork, nor scratches, nor splits.

RESULTS GUARANTEED ABSOLUTELY

When KYANIZE finishes are used in accordance with the simple directions, results are obtained in accordance with the guarantee.

WEED Bumpers

ONLY high-grade spring steel is used for Weed Bumpers to protect your car and its occupants

Every precaution and the best methods known in electro plating and enameling make them beautiful and durable. Weed fittings are so skillfully and strongly made they "stay put" — are rattle-proof

Write for illustrated folder showing styles for all cars or ask your dealer.

WEED CHAINS

The strong grip of Weed Chains makes driving in bad road weather seem like a cakewalk, compared with that helpless twisting when chainless wheels spin up and stall in the mud. Always carry Weed Regular or Weed De Luxe Chains and have them on the wheels at the very first indication of "bad going."

Perfected,

(1) THE RIFLED TIP PERFECTED
Eversharp's rifled tip, the patented invention which first made a good mechanical pencil possible, has now been perfected! They ride! (You know how the lead keeps breaking and coming off the tip in lead pencils, or writing, or breaking inside the pencil.)

(2) EXTRA LEAD, AVAILABLE IMMEDIATELY
In the perfected Eversharp, the new lead can be drawn from the magazine instantly. You can at once use any much longer lead you have. (You pull in the Eversharp and show how much lead is left of the stick you're a long

(3) FOR QUICK LOADING
Diagram shows trigger which is loose enough when lead is used up. One pull—your lead—your pencil—is done. That's all.

The pencil is now perfected

EVERSHARP has written its way round the world.

It has gone into the pockets of the great, of the leaders in the world of business and finance, of executive and factory man. It has found its place in the hand bag of the secretary and the society leader. To all, it has brought a new convenience in setting down the score of daily life.

And now comes the new Perfected Eversharp!

Six new features raise the Wahl Eversharp into a superior, supreme writing companion.

When you put the New Wahl Eversharp to paper there is the sure feeling of a positively gripped lead that first made Eversharp the world's finest pencil. And now the rifled tip, an exclusive Eversharp feature, is perfected!

There is perfect freedom from clogging tips. And when the lead runs short, the new reloading feature makes it almost as easy and quick as the thought to insert a new lead.

The new Perfected Wahl Eversharp is now the modern, necessary, the efficient tool of everyone who writes. It is the pencil you can take from your pocket with pride in its beauty, and use with satisfaction in its perfect efficiency.

During May, Eversharp dealers everywhere especially invite you to try this new perfected pencil. The month of May marks an event in the history of man's writing tools.

You need pay no more for the new Eversharp. Pencils are still from \$1 to \$30 for gold-filled or sterling silver pencils. But you can buy Eversharp from \$1 to \$10.

Eversharp's famous rifled tip, which holds the lead firmly at the point, gives the firmness, the solid feeling that the wooden pencil gave—the certainty that the lead cannot slip or turn. This grip on the lead at the tip has made Eversharp the leader among pencils.

Yet this rifled tip has now been perfected! Clogging is not now possible. In a test, thousands of leads enough for many volumes of writing, were passed through the New Perfected Eversharp without clogging or jamming.

And a better balance makes the new pencil a delight to use. Its ease and quickness of operation, its smooth, give the pleasure, the pride of ownership that the possession of the thing most modern always brings.

The New Wahl Eversharp, matched by the equally modern Wahl all-metal fountain pen in identical design, gives you two splendid writing companions.

UNCONDITIONALLY GUARANTEED

The New Perfected Eversharp is guaranteed against faulty operation of any kind, from any cause whatever. All dealers are authorized to replace, free of charge, any part or parts that fail to operate to your entire satisfaction.

(4) REPLACE WORN OUT BLADES

The construction of the new Eversharp permits the replacement of the worn blade by a new one. It should come out as new, just as easy as it did when it was first made.

(5) STRONGER BETTER CLIP

The point clip on the new Eversharp is made stronger by a different construction which adds to its gripping power. Even if accident should break the clip, when you snap it on, it is as strong as when it was first made.

(6) EVERY PART OTHER THAN PENCIL AND REFILL CAN BE REPLACED

We do not have just any part of the new Eversharp, we have every part to replace except the pencil and the refill. For we have better in choice. Each part is replaceable. Any dealer will replace any part of the new Eversharp. You need not send for a new part from the factory.

The Index of a Good Dealer

There are, perhaps, more dealers of like caliber than all any other necessary—merchandise of them, good, but not sufficient.

When you find the big, Larches display cases on the counter, you find a dealer who has as much of your interests as that he will be interested in all the merchandise that he has.

Look for a good dealer to look for when selecting the dealer you wish to purchase.

Practical, economical, reliable, fast, efficient, and durable.

LOCKTITE America's leading TIRE PATCH

Locktite is the only tire patch that is guaranteed to hold for ever. It is made of a special rubber compound that is stronger than the tire itself. It is applied to the inside of the tire, and it seals the hole completely. It is the only tire patch that is guaranteed to hold for ever.

Giving Real Service in Guiding and Governing Public Thought
Crime Items Less Than 10 Per Cent

ROGER WILLIAMS SAYS

CRIMINAL newspapers, as a whole, have in various times realized that being push news companies is not a profitable business. They have, therefore, turned to the "hard news" of the day, and they have, in the process, become more and more of a public service. They have, in the process, become more and more of a public service.

These papers, who talk about how the press is not and should not be should read it and all the rest of it. They are, in fact, the only papers that are not and should not be should read it and all the rest of it.

It is a long time since the last time that the press was not and should not be should read it and all the rest of it.

Three Major Savings
which you accomplish when you put Gargoyle Mobiloil in your home garage

We have advised Mobiloil dealers all over the country to purchase to supply car owners with the larger cost and drains considerable for home garage use. Your local dealer will likely offer to supply your needs. It is to your profit to keep a supply of the correct grade of Gargoyle Mobiloil on hand. It saves:

(1) PROTECTION By providing the correct grade of Mobiloil as specified on the Chart of Recommendations, you will substantially reduce your oil consumption and, consequently, your oil costs. You will also reduce your oil costs by using the correct grade of Mobiloil as specified on the Chart of Recommendations.

(2) UNIFORMITY By having a supply of the correct grade of Mobiloil on hand, you will avoid many of the troubles and repairs due to poor lubrication. You will obtain maximum efficiency from the operation of your car and save the frequent stops along the road.

(3) POWER AND ECONOMY Maximum power and better engine performance will be secured by maintaining the oil on good condition. Drive and pull over 1,000 miles in answer and every 500 miles in winter. Do not flash with increase as a portion of it remains in the splash trough or recovers and reduces the lubricating value of the new oil.

Replace the oil supply as necessary to keep the reservoir between half full and "full." Do not over-fill, as in excess can it would raise the oil level sufficiently to flood the engine, causing waste and carbon.

Your dealer is ready to supply you with the grade of Mobiloil you should be using—and it is in your container from the 4-gallon can to the 1-gallon can, and steel half-gallon and quart cans with lead-lined liners. If he has not already applied to you about it, see him today and secure your regular supply of Mobiloil.
